

NEVO[®]

STUDIO | PRO

NevoStudio Pro is Easy.

Maximizing the power and performance of Nevo

NevoStudio Pro is a powerful software application for Nevo Controllers that gives professional installers tremendous flexibility, faster programming, increased user interface design efficiency, and the ultimate in after-installation service and support.

INSTALLER BENEFITS

- Ease of use with wizards and simple drag and drop programming
- Unmatched efficiency between Jobs using SuperFast Device Swap™
- Easily program multiple Nevo Controllers and NevoConnect base stations in a single file, including video/voltage sensing and RS-232

Exceptional Technical Support

Extensive Training Offering

Profitable Dealer Programs

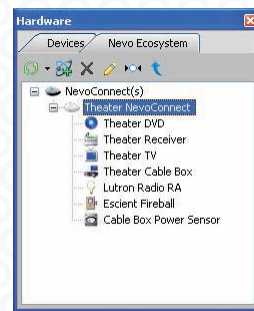

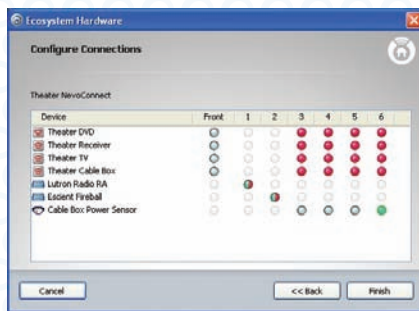

Configure NevoConnect in NevoStudio Pro

NevoStudio Pro allows installers to completely and efficiently customize Nevo Controllers and create a personalized and reliable solution.

Features

- Wizards enable you to easily add or edit devices and automatically create control interfaces.
- Extremely intuitive interface includes drag and drop use of device commands, backgrounds, buttons, symbols, themes and even entire devices.
- SuperFast Device Swap instantly replaces one device with another throughout an entire program file; every button, every macro.
- Program all Nevo Controllers and NevoConnects for a particular installation in one Job file.
- Automatic image resizing so you can use your customer's pictures without needing to resize them in photo editing software.
- Copy / Paste macros between buttons, pages or between separate Jobs.
 - o All associated devices and functions are copied when pasting between Jobs.
- World's largest professionally maintained IR code database
- Rapid learning or HEX code editing of IR commands.
- Ability to save IR and serial devices in a personal library that can be enhanced by sharing with co-workers others in the installer community.
- Built-in galleries of backgrounds, buttons, themes and other graphics.

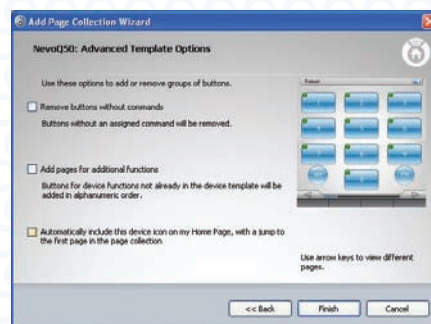

SuperFast Device Swap

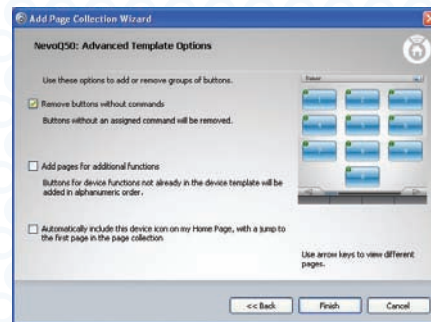

Instantly finds and replaces codes between devices

Powerful Wizards

Automatically remove unused buttons

After checking "Remove buttons without commands" Notice 2 unused buttons have been removed
